Abdou Karim **Vincent**

4th Year Student · Computer Design Engineer

(+1) 206-822-2623 | Vindou230@gmail.com | YOUR GITHUB PORTFOLIO HERE | abdou-v-58677a121

Objective

An internship in Computer Engineering or embedded Software Development on a world-class technology team, in order to take my skills to a new level and make an impact

Skills

Languages Python, C/C++, Java, LaTeX, MATLAB
Infrastructure AWS EC2. Apache {Kafka, Spark}, Spinnaker, Huggingface.
Intangibles A quick thinking and collaborative Computer Engineer with strong engineering communication & team work ethic

Experience

Marchex — *Seattle, WA*

Staff Engineer — *Sept. 2014 - Nov. 2018*

- Algorithm design, prototyping, implementation, performance analysis & optimization
- Develop audio-dsp algorithms for language & telephony SPAM identification
- Construct corpora for conversational speech recognition. Design automatic data selection algorithms
- Train, deploy & maintain custom DNN-HMM models in Kaldi. Experiment with novel end-to-end ASR architectures
- Perform 24/7 on-call support of fleet processing 1M calls/day. Extensive experience with AWS EC2 {LB, ASG, EFS, EBS}

2KSports — *San Rafael, CA*

Audio Software Engineer — *May 2005 - Jan. 2006*

- Developed C/C++ tools & libraries for the XBOX360 launch of NBA2k6, NHL2k6, College Hoops 2K6
- Performed support tasks to game development teams using the audio library

Education

Seattle University — *Seattle, WA*

B.S. in Computer Engineering — *Sept. 2024 - June 2028*

- Courses Taken: Experiential Design III, Microprocessor Design, Programmable Devices, Embedded Systems g

Shoreline Community College — *Pittsburgh, PA*

A.S. in Computer & Electrical Engineering — *Sept. 2017 - March 2024*

Extracurricular

Institute of Electrical and Electronics Engineers (IEEE), Audio Engineering Society (AES)

Member — *2012 - PRESENT*

Niger-Volta Language Technologies Institute

Founder of open-source, West African, Language technology organization — *2018 - PRESENT*
